# INDEX TO VOLUME 125

A

Abbott, Kenneth H., and Craig, Winchell McK.: Surgical Considerations in the Treatment of Hypertension, 608.
Abramson, David I., and Shumacker, Harris B., Jr.: Sympathectomy in Trench Foot, 203.
Absorbable Alginate Products in Surgery, Experimental Observations on, 102.
Acid Débridement of Burns, Studies on the, 418.
Acute Arterial Deficit, Extremity Refrigeration without Tourniquet Ligation in Cases of, 431.
Adenoma of the Thyroid, Malignant, with Secondary Metastases to Bone, 282.
Alginate Products, Absorbable, in Surgery, Experimental Observations on, 102.
Allbritten, Frank F., Jr.: Simultaneous Repair of Peripheral Nerve and Soft Tissue Defects in the Forearm, 447.
Ambulation, Early, Wound Disruption and, 768.
Amputation, Radical, and Bilateral Oophorectomy, Treatment of Cancer of the Breast in Premenopausal Patients with, 703.
Analysis of Pelvic Operations Preceding Hysterectomy, 669.
Anastomosis, in Primary Arterial Injuries, War Experiences with the Nonsuture Technic of, 157.
Anatomic Data Regarding the Surgical Treatment of Angina Pectoris, 49.
Anesthesia, Spinal, Phenylpropanolamine Hydrochloride, a Vasopressor Drug, for Maintaining Blood Pressure during, 171.
Angina Pectoris, Anatomic Data Regarding the Surgical Treatment of, 49.
Announcement, Editorial Board Changes, 513.
Arterial Deficit, Acute, Extremity Refrigeration without Tourniquet Ligation in Cases of, 431.
Arterial Injuries, Primary, War Experiences with the Nonsuture Technic of Anastomosis in, 157.
Atresia, Esophageal, and Tracheo-esophageal Fistula, 23.
Autogenous Diced Cartilage Transplants to Bone, 237.

B

Bacteriologic Study of Burn Wounds, 452
Baer, Rudolf L., *et al.*: Studies on the Acid Débridement of Burns, 418.
Bargen, J. Arnold, *et al.*: Nutritional Rehabilitation of Surgical Patients, 115.
Bartels, Elmer C., and Lahey, Frank H.: The Use of Thiouracil, Thiobarbital and Propylthiouracil in Patients with Hyperthyroidism, 572.
Bartlett, Willard: A Concept of Toxic Goiter, 566.
Baxter, Hamilton, and More, Robert H.: The Effect of the Local Reduction of Temperature on Scald Burns in the Rat, 177.
Becker, Walter F., and Lehman, Edwin P.: The Mortality of Surgical Disease, 515.
Berry, Robert E. L., *et al.*: Tetra-ethyl-ammonium as an Adjunct in the Treatment of Peripheral Vascular Disease and other Painful States, 729.
Bilateral Cutaneous Ureterostomy Eighteen Years after Ureterosigmoidostomy for Exstrophy of the Bladder, 788.
Bilateral Oophorectomy, and Radical Amputation, Treatment of Cancer of the Breast in Premenopausal Patients with, 703.
Bladder, Exstrophy of the, Bilateral Cutaneous Ureterostomy Eighteen Years after Ureterosigmoidostomy for, 788.
Blaine, George: Experimental Observations on Absorbable Alginate Products in Surgery, 102.
Blalock, Alfred: The Use of Shunt or By-pass Operations in the Treatment of Certain Circulatory Disorders, Including Portal Hypertension and Pulmonic Stenosis, 129.
Blood Pressure, during Spinal Anesthesia, A Vasopressor Drug, Phenylpropanolamine Hydrochloride, for Maintaining, 171.
Blood Volume, Reduced, Problem of, in the Chronically Ill Patient: Chronic Shock, 618.
Bone, Autogenous Diced Cartilage Transplants to, 237; Secondary Metastases to, in Malignant Adenoma of the Thyroid, 282.
Bone Grafting Methods, 96.
Book Review: Scientific, Medical and Technical Books Published in the United States of America, 1930-1944, Reviewed by Wesley Draper, 128.
Brachial Plexus, Treatment of Injuries of the, 647.
Bradley, Cloyce F., and Burch, John C.: Wound Disruption and Early Ambulation, 768.
Breast, Carcinoma of the, 673; Results of Combined Treatment with Surgery and Roentgen Therapy, 688; Treatment of Cancer of the, in Premenopausal Patients with Radical Amputation and Bilateral Oophorectomy, 703.
Burch, John C., and Bradley, Cloyce F.: Wound Disruption and Early Ambulation, 768.
Burn Wounds, Bacteriologic Study of, 452; Expeditious Care of Full-thickness, by Surgical Excision and Grafting, 1.
Burns, Scald, in the Rat, Effect of the Local Reduction of Temperature on, 177; Studies on the Acid Débridement of, 418.
Burns, Edgar, *et al.*: Bilateral Cutaneous Ureterostomy Eighteen Years after Ureterosigmoidostomy for Exstrophy of the Bladder, 788.
By-pass, or shunt operations, Use of, in the Treatment of Certain Circulatory Disorders, Including Portal Hypertension and Pulmonic Stenosis, 129.

C

Campbell, Kenneth N., *et al.*: Tetra-ethyl-ammonium as an Adjunct in the Treatment of Peripheral Vascular Disease and other Painful States, 729.

Cancer of the Breast, Treatment of, in Premenopausal Patients with Radical Amputation and Bilateral Oophorectomy, 703.

Carcinoma of the Breast, 673; Results of Combined Treatment with Surgery and Roentgen Therapy, 688; Experimental, of the Gallbladder, 241; of the Lip, Should the Neck Nodes be Dissected in Patients with?, 658; of the Lung, Present Status of the Surgical Treatment of, 541; Perforated, of the Large Intestine Complicating Pregnancy, 251.

Care, Expeditious, of Full-thickness Burn Wounds by Surgical Excision and Grafting, 1.

Cartilage Transplants to Bone, Autogenous Diced, 237.

CAVE, EDWIN F., and ROWE, CARTER R.: Utilization of Skin from Deformed and Useless Fingers to Cover Defects in the Hand, 126.

Celiotomy, Large Melena Caused by Sponge Ulcerating into Lumen of Ileum more than Twenty Years after, 249.

Cells, Malignant, Study of, with Phase Difference Microscopy, 604.

Cerebrospinal, Spontaneous Rhinorrhea, the Surgical Treatment of, 718.

Chronic Shock: The Problem of Reduced Blood Volume in the Chronically Ill Patient, 618.

Chronically Ill Patient, Problem of Reduced Blood Volume in the, Chronic Shock, 618.

Circulatory Disorders, Including Portal Hypertension and Pulmonic Stenosis, The Use of Shunt or By-pass Operations in the Treatment of certain, 129.

CLARK, JOHN H., *et al.*: Chronic Shock: The Problem of Reduced Blood Volume in the Chronically Ill Patient, 618.

Closure, Wound, without the Use of Grafts, 779.

COLEMAN, CLAUDE C., and TROLAND, CHARLES E.: The Surgical Treatment of Spontaneous Cerebrospinal Rhinorrhea, 718.

COLLER, FREDERICK A., *et al.*: Tetra-ethyl-ammonium as an Adjunct in the Treatment of Peripheral Vascular Disease and other Painful States, 729.

COLONNA, PAUL C.: Bone Grafting Methods, 96.

Combined Treatment with Surgery and Roentgen Therapy, Results of: Carcinoma of the Breast, 688.

Complications, Late, Surgical Management of Gunshot Wounds of the Pelvic Viscera and Their, 399.

Compound Injuries of the Knee Joint, Study I, 341: Study II. The Infected Knee Joint, 385.

Concept of Toxic Goiter, 566.

Congenital Dislocation of the Hip, 216

COPE, OLIVER, *et al.*: Expeditious Care of Full-thickness Burn Wounds by Surgical Excision and Grafting, 1; Bacteriologic Study of Burn Wounds, 452.

CRAIG, WINCHELL MCK., and ABBOTT, KENNETH H.: Surgical Considerations in the Treatment of Hypertension, 608.

CROCE, EDMUND J. and POTTER, STANLEY E.: The Treatment of Peripheral Nerve Injuries Complicated by Skin and Soft Tissue Defects, 349.

CURTIS, GEORGE M., *et al.*: The Surgical Therapeutic Significance of the Functional Behavior of Thyroid Nodules, 257.

D

Data, Anatomic, Regarding the Surgical Treatment of Angina Pectoris, 49.

DAVIS, LOYAL, *et al.*: The Treatment of Injuries of the Brachial Plexus, 647.

DEBAKEY, MICHAEL, *et al.*: Primary Pulmonary Malignancy Treated by Resection, 522.

Débridement, Acid, of Burns, Studies on the, 418.

DECAMP, PAUL, *et al.*: Chronic Shock: The Problem of Reduced Blood Volume in the Chronically Ill Patient, 618.

Defects in the Hand, Utilization of Skin from Deformed and Useless Fingers to Cover, 126; Skin and Soft Tissue, Treatment of Peripheral Nerve Injuries Complicated by, 349; Soft Tissue and Peripheral Nerve, Simultaneous Repair of, in the Forearm, 447.

Deformed and Useless Fingers, Utilization of Skin from, to Cover Defects in the Hand, 126.

Dislocation, Congenital, of the Hip, 216.

Diverticulum, Pulsion, of the Pharyngo-esophageal Junction: Technic of the One-stage Operation, 41.

DIXON, LEONARD, *et al.*: Primary Pulmonary Malignancy Treated by Resection, 522.

Drug, a Vasopressor, Phenylpropanolamine Hydrochloride, for Maintaining Blood Pressure during Spinal Anesthesia, 171.

E

Early Ambulation, Wound Disruption and, 768.

Effect of the Local Reduction of Temperature on Scald Burns in the Rat, 177.

ELIASON, E. L., and WELTY, ROBERT F.: A Ten-year Survey of Intestinal Obstruction, 57.

Embolism, Pulmonary, an Evaluation of, following Intravascular Venous Thrombosis, 590.

Eosinophilic Solitary Granuloma of Rib, 510.

Esophageal Atresia and Tracheo-esophageal Fistula, 23.

Evaluation of Pulmonary Embolism following Intravascular Venous Thrombosis, 590.

Excision, Surgical, and Grafting, Expeditious Care of Full-thickness Burn Wounds by, 1.

Expeditious Care of Full-thickness Burn Wounds by Surgical Excision and Grafting, 1.

Experiences, War, with the Nonsuture Technic of Anastomosis in Primary Arterial Injuries, 157; with Posttraumatic Osteomyelitis in World War II, 89; with Sympathectomy for Sequelae of Trench Feet, 505.

Experimental Carcinoma of the Gallbladder, 241; Observations on Absorbable Alginate Products in Surgery, 102.

Extremity Refrigeration without Tourniquet Ligation in Cases of Acute Arterial Deficit, 431.

Exstrophy of the Bladder, Bilateral Cutaneous Ureterostomy Eighteen Years after Ureterosigmoidostomy for, 788.

# INDEX TO VOLUME 125

F

Fibrosarcoma, Primary, of the Liver, 439.
Fingers, Utilization of Skin from Deformed and Useless, to Cover Defects in the Hand, 126.
FINNEY, GEORGE C., *et al.*: Carcinoma of the Breast, 673.
FIROR, W. M., and GEY, G. O.: The Study of Malignant Cells with Phase Difference Microscopy, 604.
Fistula, Tracheo-esophageal, Esophageal Atresia and, 23.
Forearm, Simultaneous Repair of Peripheral Nerve and Soft Tissue Defects in the, 447.
Full-thickness Burn Wounds, Expeditious Care of, by Surgical Excision and Grafting, 1.
Functional Behavior of Thyroid Nodules, Surgical Therapeutic Significance of the, 257.

G

Gallbladder, Experimental Carcinoma of the, 241.
GEY, G. O., and FIROR, W. M.: The Study of Malignant Cells with Phase Difference Microscopy, 604.
GLENN, FRANK: The Surgical Treatment of 1,545 Herniae, 72.
Goiter, Toxic, a Concept of, 566.
GORDON, STUART D., and WARREN, RUPERT F.: Autogenous Diced Cartilage Transplants to Bone, 237.
Grafting, Bone, Methods of, 96; and Surgical Excision, Expeditious Care of Full-thickness Burn Wounds by, 1.
Grafts, Wound Closure without the Use of, 778.
Granuloma, Solitary, Eosinophilic, of Rib, 510.
Gunshot Wounds, of the Pelvic Viscera and Their Late Complications, Surgical Management of, 399.

H

Hand, Utilization of Skin from Deformed and Useless Fingers, to cover Defects in the, 126.
HARE, HUGH F., and MARSHALL, SAMUEL E.: Carcinoma of the Breast: Results of Combined Treatment with Surgery and Roentgen Therapy, 688.
HARRISON, ALBERT W., and MISCALL, LAURENCE: Thoracic Surgery in a Hospital Center, Part I, 142; Part II, 311.
HARTMAN, J. C., *et al.*: Perforated Carcinoma of the Large Intestine Complicating Pregnancy, 251.
Hemostasis, Mechanism of, 292.
Herniae, Surgical Treatment of 1,545, 72.
Hip, Congenital Dislocation of the, 216.
HODGE, IAN G., and SANDERS, GEORGE BENTON: Surgical Management of Gunshot Wounds of the Pelvic Viscera and Their Late Complications, 399.
HORSLEY, GUY W.: Treatment of Cancer of the Breast in Premenopausal Patients with Radical Amputation and Bilateral Oophorectomy, 703.
HOWORTH, M. BECKETTS, Congenital Dislocation of the Hip, 216.
Hospital Center, Thoracic Surgery in a, Part I, 142; Part II, 311.
Hydrochloride, Phenylpropanolamine: A Vasopressor Drug, for Maintaining Blood Pressure during Spinal Anesthesia, 171.
HYMAN, JACK, *et al.*: Bilateral Cutaneous Ureterostomy Eighteen Years after Ureterosigmoidostomy for Exstrophy of the Bladder, 788.
Hypertension, Portal, and Pulmonic Stenosis, The Use of Shunt or By-pass Operations in the Treatment of Certain Circulatory Disorders, including, 129; Treatment of, Surgical Considerations in the, 608.
Hypertensive Patients, a Technic for Testing, Preoperatively, 119.
Hyperthyroidism, Use or Thiouracil, Thiobarbital and Propylthiouracil in Patients with, 572.
Hysterectomy, Analysis of Pelvic Operations Preceding, 669; Vaginal, Ligature Carrier for, 508.

I

Infected Knee Joint (Part II), Compound Injuries of the Knee Joint, 385.
Infections, Surgical, Streptomycin in.: I. Laboratory Studies, 194.
Injuries, Arterial, Primary, War Experiences with the Nonsuture Technic of Anastomosis in, 157; Compound, of the Knee Joint, 341; Compound, of the Knee Joint; II. The Infected Knee Joint, 385; Nerve, Peripheral, Complicated by Skin and Soft Tissue Defects, Treatment of, 349; Treatment of, of the Brachial Plexus, 647.
Intestinal Obstruction, a Ten-year Survey of, 57.
Intestine, large, Perforated Carcinoma of the, Complicating Pregnancy, 251.
Intravascular Venous Thrombosis, An Evaluation of Pulmonary Embolism following, 590.

J

Joint, Knee, Compound Injuries of the, Part I, 341; Part II, The Infected Knee Joint, 385.
Junction, Pharyngo-esophageal, Pulsion Diverticulum of the: Technic of the One-stage Operation, 41.

K

KANOF, ABRAM, *et al.*: Studies on the Acid Débridement of Burns, 418.
KITTREDGE, W. E., *et al.*: Bilateral Cutaneous Ureterostomy Eighteen Years after Ureterosigmoidostomy for Extrophy of the Bladder, 788.
KLEMME, ROLAND M., *et al.*: Anatomic Data Regarding the Surgical Treatment of Angina Pectoris, 49.
Knee Joint, Compound Injuries of the, Part I, 341; Part II, The Infected Knee Joint, 385.
Knee Joint, Infected (Part II), Compound Injuries of the Knee Joint, 385.
KRONTIRIS, A.: Experiences with Sympathectomy for Sequelae of Trench Feet, 505.

KROTKINA, N. A., and PETROV, N. N.: Experimental Carcinoma of the Gallbladder, 241.

L

Laboratory Studies: Streptomycin in Surgical Infections, 194.
LADD, WILLIAM E., and SWENSON, ORVAR: Esophageal Atresia and Tracheo-esophageal Fistula, 23.
LAHEY, FRANK H., and BARTELS, ELMER C.: The Use of Thiouracil, Thiobarbital and Propylthiouracil in Patients with Hyperthyroidism, 572.

Spinal Anesthesia, Phenylpropanolamine Hydrochloride, a Vasopressor Drug, for Maintaining Blood Pressure during, 171.
Sponge Ulcerating into Lumen of Ileum more than Twenty Years after Celiotomy, Large Melena Caused by, 249.
Spontaneous Cerebrospinal Rhinorrhea, Surgical Treatment of, 718.
SPRINZ, HELMUTH, and PULASKI, EDWIN J.: Streptomycin in Surgical Infections: I. Laboratory Studies, 194.
STARK, W. J.: The Value of External Skeletal Fixation in Elective Orthopedic Surgery, 372.
STAYMAN, J. W., JR., *et al.*: Perforated Carcinoma of the Large Intestine Complicating Pregnancy, 251.
STEIN, HYMEN D., *et al.*: Experiences with Posttraumatic Osteomyelitis in World War II, 89.
Stenosis, Pulmonic, and Portal Hypertension, the Use of Shunt or By-pass Operations in the Treatment of Certain Circulatory Disorders, Including, 129.
STEWART, CHARLES F.: War Experiences with the Nonsuture Technic of Anastomosis in Primary Arterial Injuries, 157.

Streptomycin in Surgical Infections: Laboratory Studies, 194.
Studies of the Acid Débridement of Burns, 418; Laboratory; Streptomycin in Surgical Infections, 194.
Study, Bacteriologic, of Burn Wounds, 452; of Malignant Cells with Phase Difference Microscopy, 604.
SULZBERGER, MARION B., *et al.*: Studies on the Acid Debridement of Burns, 418.
Surgery, Experimental Observations on Absorbable Alginate Products in, 102; Orthopedic, Elective, Value of External Skeletal Fixation in, 372; and Roentgen Therapy, Results of Combined Treatment with: Carcinoma of the Breast, 688; Thoracic, in a Hospital Center, Part I, 142; Part II, 311.
Surgical Considerations in the Treatment of Hypertension, 608; Disease, Mortality of, 515; Excision and Grafting, Expeditious Care of Full-thickness Burn Wounds by, 1; Infections, Streptomycin in.: I. Laboratory Studies, 194; Management of Gunshot Wounds of the Pelvic Viscera and Their Late Complications, 399; Patients, Nutritional Rehabilitation of, 115; Therapeutic Significance of the Functional Behavior of Thyroid Nodules, 257.
Surgical Treatment of Angina Pectoris, Anatomic Data Regarding the, 49; of Carcinoma of the Lung, Present Status of the, 541; of 1,545 Herniae, 72; of Spontaneous Cerebrospinal Rhinorrhea, 718.
Survey, Ten-year, of Intestinal Obstruction, 57.
SUTLER, MARTIN R., *et al.*: Tetra-ethyl-ammonium as an Adjunct in the Treatment of Peripheral Vascular Disease and other Painful States, 729.
SWARTLEY, W. B., *et al.*: Perforated Carcinoma of the Large Intestine Complicating Pregnancy, 251.
SWEET, RICHARD H.: Pulsion Diverticulum of the Pharyngo-esophageal Junction: Technic of the One-stage Operation, 41.
SWENSON, ORVAR, and LADD, WILLIAM E.: Esophageal Atresia and Tracheo-esophageal Fistula, 23.
Sympathectomy, Experiences with, for Sequelae of Trench Feet, 505; in Trench Foot, 203.

## T

TANNA, JEROME F.: Scalenotomy, 80.
TAUBER, ROBERT: The Modern Technic of the Le Fort Operation, 334; Ligature Carrier for Vaginal Hysterectomy, 508.
Technic, Modern, of the Le Fort Operation, 334; of the One-stage Operation: Pulsion Diverticulum of the Pharyngo-esophageal Junction, 41; for Testing Hypertensive Patients Preoperatively, 119.
Temperature, Effect of the Local Reduction of, on Scald Burns in the Rat, 177.
Ten-year Survey of Intestinal Obstruction, 57.
Testing Hypertensive Patients Preoperatively, A Technic for, 119.
Tetra-ethyl-ammonium as an Adjunct in the Treatment of Peripheral Vascular Disease and other Painful States, 729.
Therapy, Roentgen, and Surgery, Results of Combined Treatment with: Carcinoma of the Breast, 688.
Thiobarbital, Thiouracil and Propylthiouracil, Use of, in Patients with Hyperthyroidism, 572.
Thiouracil, Thiobarbital and Propylthiouracil, Use of, in Patients with Hyperthyroidism, 572; Use of Thyroid Extract with, in the Preparation of the Thyrotoxic Patient, 582.
Thoracic Surgery in A Hospital Center, Part I, 142; Part II, 311.
Thrombosis, Intravascular Venous, An Evaluation of Pulmonary Embolism following, 590.
Thyroid Extract, Use of, with Thiouracil in the Preparation of the Thyrotoxic Patient, 582; Malignant Adenoma of, with Secondary Metastases to Bone, 282; Nodules, Functional Behavior of, Surgical Therapeutic Significance of, 257.
Thyrotoxic Patient, Use of Thyroid Extract with Thiouracil in the Preparation of the, 582.
TOCANTINS, LEANDRO M.: The Mechanism of Hemostasis, 292.
Tourniquet Ligation, Extremity Refrigeration without, in Cases of Acute Arterial Deficit, 431.
Toxic Goiter, a Concept of, 566.
Tracheo-esophageal Fistula, Esophageal Atresia and, 23.
Transplants to Bone, Autogenous Diced Cartilage, 237.
Traumatic Pancreatitis, 66.
Treatment of Cancer of the Breast in Premenopausal Patients with Radical Amputation and Bilateral Oophorectomy, 703; of Certain Circulatory Disorders, Including Portal Hypertension and Pulmonic Stenosis, the Use of Shunt or By-pass Operations in the, 129; Combined, with Surgery and Roentgen Therapy, Results of: Carcinoma of the Berast, 688; of Hypertension, Surgical Considerations in the, 608; of Injuries of the Brachial Plexus, 647; of Peripheral Nerve Injuries Complicated by Skin and Soft Tissue Defects, 349; of Peripheral Vascular Disease and other Painful States, Tetra-ethyl-ammonium as an Adjunct in the, 729; Surgical, of Angina Pectoris, Anatomic Data Regarding the, 49; of Carcinoma of the Lung, Present Status of the, 541; of 1,545 Herniae, 72; of Spontaneous Cerebrospinal Rhinorrhea, 718.
Trench Feet, Experiences with Sympathectomy for Sequelae of, 505; Sympathectomy in, 203.
TROLAND, CHARLES E., and COLEMAN, CLAUDE C.: The Surgical Treatment of Spontaneous Cerebrospinal Rhinorrhea, 718.
TYRONE, CURTIS: Analysis of Pelvic Operations Preceding Hysterectomy, 669.

## U

Ureterosigmoidostomy, Bilateral Cutaneous Ureterostomy Eighteen Years after, for Exstrophy of the Bladder, 788.
Ureterostomy, Bilateral Cutaneous, Eighteen Years after Ureterosigmoidostomy for Exstrophy of the Bladder, 788.

Use of Grafts, Wound Closure without the, 778.
Radioactive Sodium in the Study of Peripheral Vascular Disease, 360; Shunt or By-Pass Operations in the Treatment of Certain Circulatory Disorders, Including Portal Hypertension and Pulmonic Stenosis, 129; Thiouracil, Thiobarbital and Propylthiouracil in Patients with Hyperthyroidism, 572; Thyroid Extract with Thiouracil in the Preparation of the Thyrotoxic Patient, 582.
Utilization of Skin from Deformed and Useless Fingers to Cover Defects in the Hand, 126.
UTTERBACK, ROBERT A., *et al.*: Anatomic Data Regarding the Surgical Treatment of Angina Pectoris, 49.

V

Vaginal Hysterectomy, Ligature Carrier for, 508.
Value of External Skeletal Fixation in Elective Orthopedic Surgery, 372.
Vascular Disease, Peripheral, and other Painful States, Tetra-ethyl-ammonium as an Adjunct in the Treatment of, 729; Use of Radioactive Sodium in the Study of, 360.
Vasopressor Drug, Phenylpropanolamine Hydrochloride, for Maintaining Blood Pressure during Spinal Anesthesia, 171.
Venous Thrombosis, Intravascular, An Evaluation of Pulmonary Embolism following, 590.
